Technical Security Report

Target URL	https://demo.testfire.net
Report Type	Technical
Generated	2026-06-14 13:47 UTC
Total Findings	13
Overall Risk Score	55 / 100

Vulnerability Summary

Severity	Count	Risk Level
Critical	0	Immediate Action
High	7	High Priority
Medium	2	Moderate
Low	4	Informational

Detailed Findings

Finding #1	[Low] Information Disclosure
Affected URL	https://demo.testfire.net
Parameter	Server
Payload	N/A
Description	Server header exposes version info: Apache-Coyote/1.1

Finding #2	[Low] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	X-XSS-Protection
Payload	N/A
Description	Missing X-XSS-Protection (legacy but still checked).

Finding #3	[Low] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	Permissions-Policy
Payload	N/A
Description	Missing Permissions-Policy. Browser features not restricted.

Finding #4	[Low] Missing Security Header
------------	-------------------------------

Affected URL	https://demo.testfire.net
Parameter	Referrer-Policy
Payload	N/A
Description	Missing Referrer-Policy. May leak sensitive URL data.

Finding #5	[Medium] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	X-Content-Type-Options
Payload	N/A
Description	Missing X-Content-Type-Options. MIME-type sniffing possible.

Finding #6	[Medium] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	X-Frame-Options
Payload	N/A
Description	Missing X-Frame-Options. Site may be vulnerable to clickjacking.

Finding #7	[High] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	Strict-Transport-Security
Payload	N/A
Description	Missing HSTS header. Allows downgrade attacks.

Finding #8	[High] Missing Security Header
Affected URL	https://demo.testfire.net
Parameter	Content-Security-Policy
Payload	N/A
Description	Missing Content-Security-Policy header. Increases XSS risk.

Finding #9	[High] SQL Injection (Auth Bypass)
Affected URL	https://demo.testfire.net/doSubscribe
Parameter	txtEmail
Payload	1' or '1'='1
Description	Authentication bypass verified via structured payload injection on endpoint https://demo.testfire

Finding #10	[High] SQL Injection (Auth Bypass)
Affected URL	https://demo.testfire.net/sendFeedback
Parameter	email_addr
Payload	1' or '1'='1
Description	Authentication bypass verified via structured payload injection on endpoint https://demo.testfire

Finding #11	[High] SQL Injection (Auth Bypass)
Affected URL	https://demo.testfire.net/doLogin

Parameter	uid, passw
Payload	1' or '1'='1
Description	Authentication bypass verified via structured payload injection on endpoint https://demo.testfire

Finding #12	[High] Cross-Site Scripting (XSS)
Affected URL	https://demo.testfire.net/sendFeedback
Parameter	name
Payload	
Description	Reflected XSS validation bypass detected on input parameter 'name'.

Finding #13	[High] Cross-Site Scripting (XSS)
Affected URL	https://demo.testfire.net/search.jsp
Parameter	query
Payload	
Description	Reflected XSS validation bypass detected on input parameter 'query'.
